Measham Heating & Air Conditioning Ltd

142 Birmingham Road

Aldridge

Walsall

WS9 0AH

DESIGN, INSTALLATION AND MAINTENANCE OF: ELECTRICAL, HEATING, VENTILATION & AIR CONDITIONING SYSTEMS.

Established in 1970, Measham Heating & Air Conditioning Ltd is a long-established contractor based in Aldridge, West Midlands, specialising in Mechanical, Electrical and Air Conditioning services across healthcare, education, commercial and industrial sectors.

We provide a wide range of services, from small reactive and planned works through to larger refurbishment and installation packages, with extensive experience working in live, sensitive and occupied environments.

Our services include:

- Mechanical plantroom installations and upgrades
- Heating and pipework systems
- Domestic hot and cold water services
- Sanitaryware installations
- Ventilation systems, AHUs, ductwork and extract systems
- Air conditioning installations including VRF / VRV, split and multi split systems
- Electrical installations including lighting, power distribution, containment and associated upgrades
- Refurbishment, replacement and upgrade works in live operational environments

Recent project examples:

- £4 million mechanical plantroom installation at New Cross Hospital, involving major plant replacement, complex phasing and delivery within a live NHS environment
- £1.2 Million Full and extensive M&E Refurb at Sutton Coldfield, Cottage Hospital.
- £1 Million Mechanical refurb at Halesowen College
- £680k M&E Installation Bluecoat School, Walsall

Director: A.J. Measham BEng (Hons)

Measham is a Trade name of [Measham](#) Heating & Air Conditioning Ltd.

Our experience and capability:

- Extensive healthcare and NHS experience, including plantroom, mechanical and associated building services works
- Experience within schools, colleges and other education settings, delivering works safely in live environments
- Commercial and industrial project delivery across Mechanical, Electrical and Air Conditioning disciplines
- Strong emphasis on health and safety, compliance, planning and professional delivery

Our in house management and delivery structure includes:

- Dedicated Mechanical, Electrical and Air Conditioning Contract Managers
- In house dedicated Health & Safety Manager
- CAD support for coordination, planning and project delivery
- Support for design and build style delivery, contractor led design development and coordinated M&E package support where required

Workforce and resource:

- Direct employed site operatives across Mechanical, Electrical and Air Conditioning divisions
- Strong mix of experienced senior operatives, developing engineers and apprentices
- Trusted and longstanding subcontract partners to support additional resource where required
- Well positioned to comfortably deliver full M&E packages

At Measham Heating & Air Conditioning Ltd, we are committed to delivering technically sound, safe and reliable solutions, supported by strong project management, clear communication and a focus on quality throughout every stage of delivery.

We would welcome the opportunity to discuss any current or upcoming requirements where Measham may be able to support with Mechanical and Electrical packages, either as a direct contractor or as part of a wider project delivery team.
